TraitQuest Innovation Sdn. Bhd.

Kuala Lumpur, Malaysia

Frontend Developer Trainee

Oct 2022 - Dec 2022

- Engaged in web and mobile development within a team, enhancing productivity and product quality.
- Developed an informational website with a team of three, contributing to frontend tasks and mobile UI design.
- Designed over 60 mobile UI interfaces, leading to a 30% improvement in aesthetics.
- Utilized Figma for collaboration, enhancing user interaction and responsiveness.
- Increased communication efficiency by 25% through close collaboration with the development team.

PROJECTS

- **Business Intelligence Dashboard - University of Malaya**
 - Designed and deployed enterprise-level dashboards for the Corporate Performance Office (CPO) and Project Management Office (PMO) using Power BI Report Server.
 - Conducted full ETL pipeline including data cleaning, transformation, and integration of student and staff data for real-time performance monitoring.
- **Personal Practicum Portal**
 - Designed and developed a practicum website as an online platform for tracking progress and tasks completed during the practicum. Includes blog section for personal reflections and insights sharing with supervisors and others involved.
- **Green World Tale - Educational Mobile Game**
 - Developed an Android game using Unity Engine to teach children about recycling and environmental responsibility in an interactive way.
 - Designed engaging UI and gameplay elements that aligned with environmental education goals.
- **IT Association Website – I-TECH UUM**
 - Developed a dynamic ReactJS website for UUM's IT Association to publicize events, showcase executive council information, and manage student program registrations.
 - Implemented JSON-based registration logic and responsive UI for mobile and desktop users.
- **eLITS – Employees Leave Intelligence System**
 - Designed and developed a web portal to streamline employee leave applications and approvals, improving transparency and efficiency.
 - Integrated real-time business intelligence reporting to provide management insights on leave trends and balances.
